THE TORTURED ISLE.

Latest Advances Show No Palliation of the Awful Disaster—Volcanic Eruption Seems Epidemic in the Windward Isles

New York, May 13.—Reports which arrive very slowly from the West Indies only intensify the ominous dispatches previously reported.

The catastrophe at Martinique was undoubtedly much more disastrous than was at first reported.

American and foreign governments are using every means to effectively co-operate for the relief of the sufferers. The endeavors are taking the direction of hurrying supplies to prevent the annihilation of the remaining inhabitants by famine.

The eruption near St. Pierre seems to be somewhat abated.

Fires, however, still prevent entrance to the city, and it is impossible to discover just what conditions exist.

Refugees from Martinique arriving at Dominica report that great crevasses are opening and new craters forming in the northern portion of the island.

Owing to the damming up of the outlets, the rivers are overflowing and floods add their terrors to fire and smoke.

Constant rumblings from far underground are heard, and the earth is occasionally shaken. The dense smoke makes the midday as dark as night. There is constant fear that other portions of the island may be visited by the terror.

GRAHAMVILLE CLUB ELECTION

The Democrats of That Precinct Seem to Think They Know Enough to Supervise their own Affairs

At a call meeting of the Democratic Club of Grahamville precinct, No. 11, held May 10, 1902, N. A. Fort was chosen president and Allen Gibson secretary. F. W. McDonald was elected executive committee member. B. T. Lisk, W. T. Henderson and R. T. McDonald were appointed a committee to draft suitable resolutions expressing the sentiments of the club regarding the action of the state executive committee. The following were reported and unanimously adopted:

"Be it resolved that we, the members of this club, object to any state executive committee formulating any rules or regulations, saying who shall or shall not vote at the primaries for the selection of county and precinct officers. That we think and shall insist that we, the club, shall judge of who shall be qualified to vote at the primary in our own precinct."

Signed: B. F. Lisk, W. T. Henderson, R. D. McDonald, Committee.

BEWARE OF A COUGH

A cough is not a disease but a symptom. Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough, and if properly treated as soon as this cough appears are easily cured. Chamberlain's Cough Remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent. For sale by Anti-Monopoly Drugstore.

Captain Austin Lost His Life by the Upsetting of a Sailboat

Tampa, May 13.—Captain Austin, of the tugboat McCauley, was drowned in Tampa Bay a few miles from Port Tampa Sunday afternoon.

Friday the McCauley lost an anchor in the bay. Sunday afternoon Captain Austin and a negro deckhand took a small sailboat and started out to try and locate the lost anchor. In the gale which began to blow about 4 p. m., the sailboat was capsized. Captain Austin was not seen again. The negro managed to get a hold on a piece of wreckage. After being in the water for four hours, he was picked up by the tug Biscayne. He was almost dead from exhaustion.

Congress Quickly Appropriates That Sum for the Relief of the West India Sufferers

Washington, May 13.—The House and Senate yesterday evening concurred in a resolution making an appropriation of \$200,000 for the relief of the survivors of the Martinique disaster. This action followed the receipt of a special message from President Roosevelt asking the immediate appropriation of \$500,000 for the purpose.

At the cabinet meeting this morning it was agreed that the state, war and navy departments should use all the means at their command to send relief to the sufferers at Martinique and other places.
